Crossroads Systems to Exhibit at Sun Forum 2007

*Crossroads Demonstrates its Data Protection Leadership
with Award-Winning ReadVerify Appliance (RVA)*

AUSTIN, Texas – October 8, 2007 – Crossroads Systems, Inc. (OTCBB Pink Sheets: CRDS.PK), a leading provider of Business Information Assurance (BIA) solutions, today announced it will participate in the Sun Forum 2007 Conference (FORUM 2007) to be held Tuesday, October 9, 2007 through Thursday October 11, 2007 in Denver, Colorado. Crossroads will highlight and demonstrate its innovative and industry-leading ReadVerify Appliance (RVA) which prevents data loss resulting from tape media degradation improves storage utilization performance and reduces backup costs substantially.

FORUM 2007 is the 19th flagship event of its kind being hosted by Sun Microsystems. An exclusive storage audience - consisting mostly of qualified SUN customers - is invited to learn how to control cost and create business continuity through industry's latest, best and most innovative solutions. Selected SUN partners demonstrate to decision-makers how to continue improving access to their data, how to reduce datacenter power consumption, and how to enhance data security.

Powerful Tape and Media Verification Solution Brought to FORUM 2007 Attendees

Attendees are invited to visit booth 223 for hands-on demonstrations of its award-winning BIA solution SurePath ReadVerify Appliance:

- **SurePath™ ReadVerify Appliance (RVA)** – a simple, cost-effective and stand-alone appliance that ensures the integrity, performance and full utilization of tape backup systems. As more than 50 percent of tape backup errors are directly attributed to tape media, Crossroads' RVA offers a unique approach to ensure the protection and integrity of information. RVA provides advanced management features such as tape drive performance and utilization analysis, tape media and drive statistical data logging, and automated report and alert functionality. RVA validates the integrity of the drive/media system while providing historical resource monitoring and reporting, enabling companies to be proactive in managing tape media errors.

"Crossroads' presence at SUN FORUM illustrates our innovative leadership as well as our commitment to participating in important SUN events," said David Cerf, Executive Vice-President of Business and Corporate Development. "Our
